The Max Planck Florida Institute (MPFI) Brain Bee is open to high school students in grades 9-12. Similar to a spelling bee, students in the competition must answer a series of questions based on the book “Brain Facts” published by the Society of Neuroscience. The top three finalists will receive cash prizes ranging from $75 to $200 depending on placement... and the first place winner will be eligible to compete in the National Brain Bee!

For more information, contact MPFI’s Head of Educational Outreach, Dr. Ana Fiallos at ana.fiallos@mpfi.org.

Registration opens in mid-November!
