The selection process for Top Doctors listing begins with peer recognition through surveys that are given out to thousands of physicians and other healthcare leaders nationwide. They are asked to identify who they believe are highly skilled, exceptional doctors. Castle Connolly then reviews the peer-recommended list for standards, including medical education, training, board certifications, hospital appointments, administrative posts, professional achievements and malpractice and disciplinary history.

"While our entire medical staff is of the highest caliber, our physicians recognized by Castle Connolly are deserving of this prestigious accolade," said Jerry Fedele, President and CEO of Boca Regional. "We congratulate them on the honor."

Note: The list of Boca Regional physicians who made "Top Doctors" can also be viewed on Castle Connolly's website (castleconnolly.com).

About Boca Raton Regional Hospital – Advancing the boundaries of medicine.

Boca Raton Regional Hospital is an advanced, tertiary medical center (BRRH.com) with 400 beds and more than 800 primary and specialty physicians on staff. The Hospital is a recognized leader in oncology, cardiovascular disease and surgery, minimally invasive surgery, orthopedics, women's health, emergency medicine and the neurosciences, all of which offer state-of-the-art diagnostic and imaging capabilities. The Hospital is a designated Comprehensive Stroke Center by the Florida Agency for Health Care Administration (AHCA).
