

OPEN SAFELY TO STAY OPEN

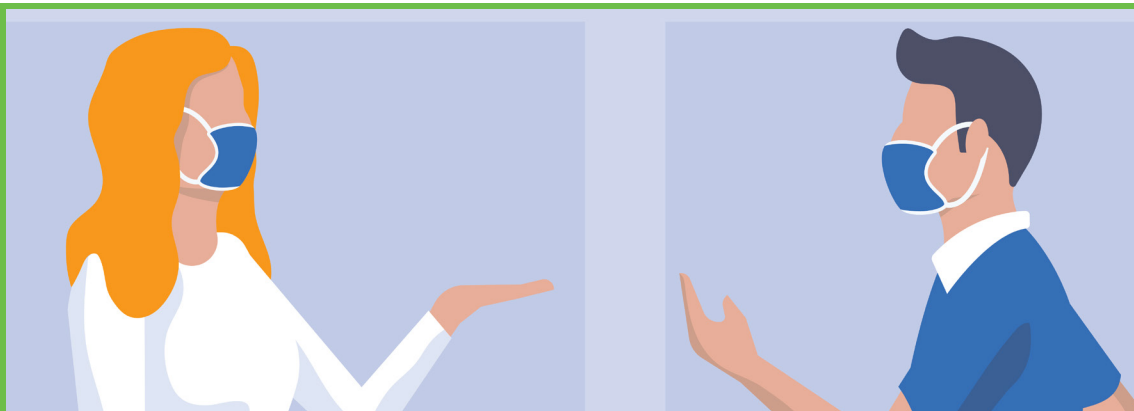

Please support the safe and successful reopening of your business or venue by doing the following three things:

1

Maintain and encourage 6 foot social distancing in all public places.

2

Wear and encourage the use of facial coverings in all public venues or around people.

3

Stay home if you have any viral symptoms – or, if you have been around those who may be sick.

You are in a unique position to encourage these behaviors by leading our community by example. Let's all do our part to keep The Palm Beaches open. Together we can protect lives and support local business.
